

Generic, Collection

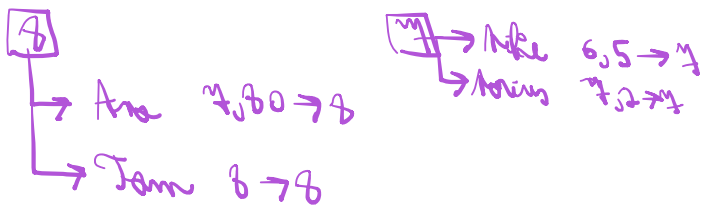

Map = Dictionary, deprecated

→ for (int i=0; i<list.size(); i++)
for (String s: list)

→ iterator
Iterator<String> it = list.iterator();

MyMap

5 → Sam 4,75 → 5

4 → Bob 4

V1
public class MyMap implements Composite {
 private TreeMap<Integer, List<Student>> map;
 ...
}

...

V2

```
public class MyRepo extends TreeRepo <Integer, Integer> {
```

```
super.put(3, 2);
```

- poți folosi toate metodele din clasa TreeRepo (din context noștrii)
